EDUCATION

IMS Engineering College, Ghaziabad

Oct 2023 – June 2027

Bachelor of Technology (CS)

GPA: 7.9

Relevant Coursework: Data Structures and Algorithms, Object Oriented Programming, Database Management Systems, Computer Networks, Operating Systems, Artificial Intelligence, Machine Learning Basics, Cybersecurity Fundamentals, Web Development, Backend Development (Python/Flask/Streamlit), Data Analytics

CAREER OBJECTIVE

Motivated Computer Science student with a strong interest in Artificial Intelligence, cybersecurity, and backend development. Seeking an opportunity to apply my skills in building intelligent and secure systems, contribute to real-world projects, and continuously learn emerging technologies while adding value to the organization.

EXPERIENCE

Web Development Intern — Aeologic Technologies Pvt Ltd

June 2026 - Present

- Working on web application development using modern technologies and industry-standard development practices.
- Collaborating with the development team to design, develop, test, and deploy software solutions.

PROJECTS

AI Resume Analyzer

- Build an AI tool that checks resumes and compares them with job descriptions to give a match score.
- Helps users find missing skills and gives simple suggestion to improve their resume.
- Provides quick and easy feedback through a simple user interface.

JalRakshak-AI

- Developed JalRakshak-AI, a sensorless AI-powered smart irrigation system using plant vision analysis and NDVI/NDWI satellite data to optimize water usage for smallhold farmers.
- Implemented offline voice AI with local-language support, making the system accessible to rural farmers without internet connectivity, deployed via GitHub with modular architecture.
- Built a full-stack application with Python/Flask backend and HTML/CSS/JS frontend, integrating digital twin simulation and transpiration sensing for real-time crop water monitoring.

TECHNICAL SKILLS

Programming Languages: Core Java, Python, C, SQL, PHP

Backend Development: Spring Boot, Flask, REST APIs, Laravel

Database Systems: MySQL, PostgreSQL, MongoDB, SQLite

AI/Data: Machine Learning Basics, Anomaly Detection, Data Analysis, Prompt Engineering

Tools: Git, GitHub, VS Code, ChatGPT, Claude AI, Postman

Cybersecurity: SOC Basics, Network Security Concepts, Threat Detection

CERTIFICATIONS & TRAINING

- **Python Full Stack Virtual Internship** EduSkills Academy
- **Data Science Tools** IBM SkillsBuild
- **Introduction to Machine Learning** Microsoft
- **Introduction to Modern AI** Cisco Networking Academy
- **Data Structures and Algorithms (DSA) Training** Brain Mentors Pvt Ltd (Offline, 81 hours)
